PROFESSIONAL SUMMARY

Software Engineer with 4 years of experience building enterprise web applications, specializing in Angular, TypeScript, and RxJS. Experienced across the full stack, integrating REST and GraphQL APIs and contributing to Spring Boot backends. Skilled at optimizing API performance, building interactive data visualizations, and delivering effective solutions in fast-paced, research-driven teams.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Java

Frontend: Angular, RxJS, NgRx, Reactive Forms, Highcharts, HTML5, CSS3, Responsive UI Design

Backend & APIs: Spring Boot, REST APIs, GraphQL, PostgreSQL

Tools & Practices: Git, Postman, Vercel, Code Reviews, Agile, POC Development

PROFESSIONAL EXPERIENCE

Software Engineer *Sep 2022 – Present*

Netcracker Technology, Bangalore

- Worked on a Research and Sales team building a CSRD (Sales Force Automation) product for lead, opportunity, and quota management for enterprise customers.
- Developed Angular front-end features and used RxJS to manage asynchronous data streams and API calls.
- Integrated RESTful and GraphQL APIs for seamless data exchange, optimizing performance by reducing unnecessary calls and limiting payloads to required fields.
- Built interactive charts and visualizations with Highcharts for reporting and analytics.
- Contributed to Spring Boot backend services by developing minor enhancements, fixing defects, and supporting REST API development.
- Delivered multiple fast-paced demos and POCs, adapting quickly to changing requirements and validating new features and approaches.
- Prepared delivery items for several releases, refactored existing functionality, and participated in code and design reviews.
- Led Technical Knowledge Transfer (KT) sessions to help team members understand project components and processes.

PROJECTS

Sales Force Automation – Enterprise CRM — *Angular, RxJS, GraphQL, REST APIs, Highcharts, Spring Boot*

- Developed features for an enterprise CRM used for lead, opportunity, and quota management; integrated REST and GraphQL APIs while optimizing payload sizes and reducing redundant calls.
- Built interactive dashboards and reports with Highcharts, and contributed Spring Boot backend enhancements, defect fixes, and feature support.

Cloud Kitchen Web Application — *Freelance · Angular, Spring Boot, PostgreSQL, REST APIs*

- Built the frontend in Angular with reusable components, routing, reactive forms, and responsive UI; developed a Spring Boot + PostgreSQL backend exposing REST APIs for dynamic content.
- Created an admin portal with full CRUD content management; deployed the frontend on Vercel with a custom domain and Git-based continuous deployment workflows.

AWARDS & RECOGNITION

- **Star Award** — Netcracker Technology, for consistently delivering exceptional value.

EDUCATION

B.E., Information Science & Engineering *2018 – 2022*

Mangalore Institute of Technology & Engineering • CGPA: 8.15 / 10
